

Office

**Rivington Street Studio
London, UK**

**PRODUCTS USED:
Bloc PUR**

Polyflor commercial vinyl flooring from the Bloc collection was recently chosen to add a splash of colour to Rivington Street Studio architectural practice in London.

Rivington Street Studio specialises in architectural and landscaping projects for the education, housing, leisure, commercial and public sectors. The Soft Moss shade from the Bloc range adds earthiness and warmth to the otherwise minimalistic interior. The green shade was fitted by local contractors Abbotts Flooring throughout the open plan office, meeting rooms and the communal kitchen.

Richard Trew, Associate at Rivington Street Studio commented, "We chose the Soft Moss shade from the Bloc collection as it gives our office a hit of bold colour without being too overwhelming or distracting for staff. The solid colour design looks contemporary and fits right in with our modern workspace."
