Expona Simplay PUR**

Loose lay luxury vinyl tiles from the Expona Simplay PUR collection were installed at the Olicargo office in Santo Tirso, Portugal. Olicargo is a global transport and logistics company with more than 4000 offices.

1400m² of Expona Simplay flooring in the Grey Country Oak shade was fitted alongside carpet tiles in meeting rooms, reception areas, office space and circulation areas.

The Expona Simplay collection of loose lay vinyl tiles and planks offers authentic wood, stone and textile effects presented in an adhesive-free, ready to lay product designed to reduce installation time. Each plank or tile can be installed, lifted and reinstalled elsewhere without leaving any residue, with the product's unique, non-skid honeycomb backing layer and thicker 5mm gauge ensuring that the tiles stay in position.
